Trustees' Responsibilities and Approval

The trustees are required to maintain adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is their responsibility to ensure that the financial statements fairly present the state of affairs of the trust as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with the IFRS for SMEs Accounting Standard as issued by the International Accounting Standards Board and the requirements of the Trust Property Control Act 57 of 1988.

The financial statements are prepared in accordance with the IFRS for SMEs Accounting Standard as issued by the International Accounting Standards Board and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The trustees acknowledge that they are ultimately responsible for the system of internal financial control established by the trust and place considerable importance on maintaining a strong control environment. To enable the trustees to meet these responsibilities, the trustees sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the trust and all employees are required to maintain the highest ethical standards in ensuring the trust's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the trust is on identifying, assessing, managing and monitoring all known forms of risk across the trust. While operating risk cannot be fully eliminated, the trust endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The trustees are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The trustees have reviewed the trust's budget forecast and levy schedule for the year to 28 February 2027 and, in the light of this review and the current financial position, they are satisfied that the trust has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the trust's financial statements. The financial statements have been examined by the trust's external auditors and their report is presented on page 5 - 6.

The annual financial statements set out on pages 1 to 16, which have been prepared on the going concern basis, were approved by the trustees on 08/09/2026 and were signed on its behalf by:

Trustee

Trustee

Trustees' Report

The trustees have pleasure in submitting their report on the annual financial statements of Centre for Economic Governance and Accountability in Africa for the year ended 28 February 2026.

1. Review of activities

The trust undertakes economic and budget analysis research, capacity strengthening and advocacy activities in order to provide evidence of, and possible solutions to, the fiscal and administrative challenges that face many African countries in their fight against ill-health, hunger and lack of basic necessities for quality life. It provides these services for interest groups, civil society organisations, members of parliament, government officials and for students and research agencies. The trust operates principally in South Africa and other African countries.

The operating results and state of affairs of the trust are fully set in the attached financial statements and do not in our opinion require any further comment.

Net loss of the trust was R 4 182 821 (2025: surplus R 759 432).

2. Going concern

The trustees believe that the trust has adequate financial resources to continue in operation for the foreseeable future and accordingly the annual financial statements have been prepared on a going concern basis. The trustees have satisfied themselves that the trust is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The trustees are not aware of any new material changes that may adversely impact the trust. The trustees are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the trust.

The ability of the trust to continue as a going concern is dependent on a number of factors. The most significant of these is the continued support of donors as stipulated in the individual donor contract.

3. Events after the reporting period

The trustees are not aware of any material event which occurred after the reporting date and up to the date of this report.

4. Trustees

The trustees in office at the date of this report are as follows:

Trustees
Tamara Braam
Lloyd Lotz
Moses Nhlanhla Ndlovu
Alison Jill Hickey-Tshangana
Jacqueline Viglino (Resigned as a Trustee on 31 March 2012 and appointed as an Acting Director from 31 March 2025 to 31 October 2025)

5. Auditors

BDO South Africa Incorporated will continue in office for the next financial period.

Independent Auditor's Report

To the Trustees of

Centre for Economic Governance and Accountability in Africa

Opinion

We have audited the financial statements of Centre for Economic Governance and Accountability in Africa (the trust) set out on pages 7 to 16, which comprise the statement of financial position as at 28 February 2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Centre for Economic Governance and Accountability in Africa as at 28 February 2025 , and its financial performance and cash flows for the year then ended in accordance with the IFRS for SMEs Accounting Standard as issued by the International Accounting Standards Board and the requirements of the Trust Deed.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' *Code of Professional Conduct for Registered Auditors* (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the *International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards)*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The trustees are responsible for the other information. The other information comprises the information included in the document titled "Centre for Economic Governance and Accountability in Africa Annual Financial Statements for the year ended 28 February 2025", which includes the Trustees' Report as required by the Trust Deed. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Trustees for the Financial Statements

The trustees are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Trust Deed, and for such internal control as the trustees determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the trust or to cease operations, or have no realistic alternative but to do so.

BDO South Africa Incorporated
Registration number: 1995/002310/21
Practice number: 905526
VAT number: 4910148685

Chief Executive Officer: LD Mokoena

A full list of all company directors is available on www.bdo.co.za

The company's principal place of business is at The Wanderers Office Park, 52 Corlett Drive, Illovo, Johannesburg where a list of directors' names is available for inspection. BDO South Africa Incorporated, a South African personal liability company, is a member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Auditor's Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Accounting Policies

1. Basis of preparation and summary of significant accounting policies

The financial statements have been prepared on a going concern basis in accordance with the IFRS for SMEs Accounting Standard as issued by the International Accounting Standards Board. The financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

1.1 Significant judgements and sources of estimation uncertainty

Critical judgements in applying accounting policies

Management are required to make critical judgements in applying accounting policies from time to time. The judgements, apart from those involving estimations, that have the most significant effect on the amounts recognised in the annual financial statements, are outlined as follows:

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Trade receivables

The trust assesses its financial assets measured at cost and amortised cost for impairment at each reporting date. In determining whether an impairment loss should be recorded in the statement of comprehensive income, the trust makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Impairment testing

The trust reviews and tests the carrying value of property, plant and equipment, investment property on the cost model and intangible assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. When such indicators exist, management determine the recoverable amount by performing value in use and fair value calculations. These calculations require the use of estimates and assumptions. When it is not possible to determine the recoverable amount for an individual asset, management assesses the recoverable amount for the cash generating unit to which the asset belongs.

1.2 Property, plant and equipment

Property, plant and equipment are tangible assets which the trust holds for its own use or for rental to others and which are expected to be used for more than one period.

Property, plant and equipment is carried at cost less accumulated depreciation and accumulated impairment losses.

Cost includes costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Depreciation is provided using the straight-line method to write down the cost, less estimated residual value over the useful life of the property, plant and equipment, which is as follows:

Furniture and fixtures	6 years
Office equipment	5 years
Computer equipment	3 years

The residual value, depreciation method and useful life of each asset are reviewed at each annual reporting period if there are indicators present that there has been a significant change form the previous estimate.

Accounting Policies

1.2 Property, plant and equipment (continued)

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss in the period.

1.3 Financial instruments

Classification

The company classifies financial assets and financial liabilities into the following categories

- Financial instruments at amortised cos
- Financial instruments at fair value
- Financial instruments at cost

Classification depends on the purpose for which the financial statements were obtained/incurred and takes place at initial recognition.

Initial measurement

Financial instruments are initially measured at the transaction price (including transaction costs except in the initial measurement of financial assets and liabilities that are measured at fair value through surplus or deficit) unless the arrangement constitutes, in effect, a financing transaction in which case it is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial instruments at amortised cost

Debt instruments, as defined in the standard, are subsequently measured at amortised cost using the effective interest method. Debt instruments which are classified as current assets or current liabilities are measured at the undiscounted amount of the cash expected to be received or paid, unless the arrangement effectively constitutes a financing transaction.

At the end of each reporting date, the carrying amounts of assets held in this category are reviewed to determine whether there is any objective evidence of impairment. If so, an impairment loss is recognised.

Financial instruments at cost

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort are measured at cost less impairment.

Financial instruments at fair value

All other financial instruments are measured at fair value through profit and loss.

1.4 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as leave pay and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

1.5 Provisions and contingencies

Provisions are measured at the present value of the amount expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as interest expense.

Provisions are not recognised for future operating losses.

Provisions are recognised when:

Accounting Policies

1.5 Provisions and contingencies (continued)

- the trust has an obligation at the reporting date as a result of a past event;
- it is probable that the trust will be required to transfer economic benefits in settlement; and
- the amount of the obligation can be estimated reliably.

1.6 Revenue

Revenue is recognised to the extent that the trust has transferred the significant risks and rewards of ownership of goods to the buyer, or has rendered services under an agreement provided the amount of revenue can be measured reliably and it is probable that economic benefits associated with the transaction will flow to the trust. Revenue is measured at the fair value of the consideration received or receivable, excluding sales taxes and discounts.

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably:
- it is probable that the economic benefits associated with the transaction will flow to the trust;
- the stage of completion of the transaction at the end of the reporting period can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

1.7 Foreign exchange

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in the functional currency of the trust, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of each reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in surplus or deficit in the period in which they arise.

When a gain or loss on a non-monetary item is recognised in other comprehensive income or directly in equity, any exchange component of that gain or loss is recognised in other comprehensive income or directly in equity. When a gain or loss on a non-monetary item is recognised in surplus or deficit, any exchange component of that gain or loss is recognised in surplus or deficit.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

1.8 Deferred income

Deferred income is initially recognised as the value of the funds received less expenses incurred for a specific project as per the donor contract.

The deferred income is subsequently recognised as revenue in the period in which the funds have been utilized as stipulated in the donor contract.
